

# DIY | Snow Melt | Increases Efficiency

## Product: Concrete Slab Insulation

### Reflectix® Installation Instructions

1. Reflectix® Concrete Slab Insulation
2. Concrete
3. Poly Tubing
4. Concrete Reinforcing Wire
5. Base Material

#### Tools Required:

- Safety Glasses
- Staple Gun
- Tape Measure
- Utility Knife/Scissors
- Flat Edge Taping Tool

#### Recommended Products:

- Concrete Slab Insulation, White/Reflective/Bubble/Bubble - Roll: DBWEF48050 (48" x 50'), DBWEF48100 (48" x 100')

#### Installation Instructions:

- Unroll the Reflectix® Concrete Slab Insulation product over the base material prior to pouring the concrete (printed orange tape side facing up).
- Butt the seams of the product and seal with 3" wide poly tape. Note: Utilize a flat edge taping tool to assure good adhesion on all tape.
- Install Snow Melt System per manufacturer's specifications.

## Review These Important Safety Guidelines Prior to Installation:

- **ALWAYS** check local building codes before installing Reflectix®.
- **ALWAYS** check the area you are insulating and make any needed repairs. Any worn wiring should be replaced before you begin installing Reflectix®.
- **ALWAYS** make sure work areas are well ventilated and well lighted.
- **ALWAYS** use eye protection when operating a staple gun.
- **ALWAYS** use caution and common sense when using a staple gun. Be aware of where electrical wiring is located. Stapling into a wire can cause severe shock or death. **NEVER** staple into electrical wiring.
- **ALWAYS** be careful when working with large pieces of Reflectix® on windy days.
- When installing Reflectix® on bright sunny days, it is best to wear sun glasses.
- Do not work in areas such as attics when temperatures are too hot.
- Visit our website at [www.reflectixinc.com](http://www.reflectixinc.com) for additional product and installation information.

**Please Note:** The intention of these Installation Instructions and 3-D renderings are for the sole purpose of illustrating the correct location and relative position of the Reflectix® products in specific building assemblies. The correct construction methods and techniques are the responsibility of the installer or contractor. The methods outlined are recommendations on location of the Reflectix® products as a guideline. There are no claims on the part of Reflectix, Inc. that these building assemblies are finite standards or meet building code requirements (as they can vary by region).
