## REFLECTIX® SUBMITTAL SHEET

# Duct Insulation R-4.2

Reflectix® Duct Insulation is an alternative to other types of fibrous insulation products. Ease of handling and quick installation make Reflectix® the first choice when selecting insulation for round or rectangular ductwork in HVAC systems. The product provides an R-4.2 when installed directly to the duct.

### PRODUCT DESCRIPTION

Reflectix® Duct Insulation consists of two layers of highly reflective film (96% reflectivity) that are bonded to two tough layers of polyethylene. Two inner layers of insulating bubbles resist conductive heat flow while a center layer of polyethylene gives Reflectix® high reliability and strength. The product has a tape running the length of the roll for easy identification by code officials. The tape identifies the manufacturer and ASTM Testing: Reflectix® Duct Insulation · ASTM E84 · Class A / Class 1 · ASTM C411 Passed

### BENEFITS

## MANUFACTURER'S SUGGESTED INSTALLATION INSTRUCTIONS

**NOTE:** Installation instructions and illustrated drawings are recommendations only, while proper local construction methods are the responsibility of the installer.

### 1. STANDARD WRAP (CIRCUMFERENCE)

#### - ROUND OR RECTANGULAR DUCTS

- Make sure all metal joints, seams and penetrations are sealed.
- Verify circumference of the duct.
- Cut the Reflectix® product to this length plus 1".
- Wrap the product around the duct and securely tape the linear and circumference seams (overlapping 1" - 2") with a UL181 Tape with Acrylic Adhesive (goal is an air-tight, snug seam seal). Do not leave any exposed duct or space where air can enter between the duct and the Reflectix®.

### 2. SPIRAL WRAP DIRECTLY AGAINST DUCT

#### - ROUND DUCTS

- Make sure all metal joints, seams and penetrations are sealed.
- Spiral wrap Reflectix® around the duct, overlapping 2" as you proceed.
- If necessary, trim width of product to accommodate bends or diameter changes in the duct.
- Securely tape seams with a UL181 Tape with Acrylic Adhesive (goal is an air-tight, snug seam seal).
- Do not leave any exposed duct or space where air can enter between the duct and the Reflectix®.

## PLEASE NOTE REGARDING HANGERS:

**Strap Hanger:** Wrap Reflectix® with the seam at the hanger. Tape seam tightly around hanger.

**NOTE:** Not to be used as duct liner.
