Post Frame Building | Wall | New

Reflectix Installation Instructions

- 1. Reflectix[®] Insulation
- 2. Exterior Wall Panel
- 3. Girt
- 4. Post

Tools Required:

Safety Glasses Tape Measure Utility Knife Staple Gun

Recommended Product:

Reflective/Bubble/Bubble/White - Roll: RDBW48100 (48"x 100')

Inside the Girts Open Interior: 4.2

Outside the Girts Open Interior: R-3.7

Installation Instructions: (There are 2 options)

1. Product Inside the Girts

- The Reflectix[®] Insulation is installed with the "white side" towards the interior of the building.
- Attach the product using 5/16" staples at approximately 4" intervals.
- · Staple the Reflectix[®] Reflective/Bubble/Bubble/White product to the outside of the top girt.
- · Staple the product to the inside of the remaining girts.
- Tape the seams with a Reflectix[®] Foil Tape (goal is an air-tight, snug seam seal).

2. Product Outside the Girts

The Reflectix[®] Insulation is installed with the "white side" towards the interior of the building.

- Attach the product using 5/16" staples at approximately 4" intervals.
- Staple the Reflectix® Reflective/Bubble/Bubble/White product to the outside of the top girt.
- Staple the product to the outside of the remaining girts. Insure there is a drape of at least 3/4" (towards the interior of the building) at the center of each cavity.
- Tape the seams with a Reflectix® Foil Tape (goal is an air-tight, snug seam seal).
- Attach outside panel.

Calculation Disclaimer: All values are calculated based on the "ASHRAE Handbook of Fundamentals".

Review These Important Safety Guidelines Prior to Installation:

- <u>ALWAYS</u> check local building codes before installing Reflectix[®].
- <u>ALWAYS</u> check the area you are insulating and make any needed repairs. Any worn wiring should be replaced before you begin installing Reflectix[®].
- <u>ALWAYS</u> make sure work areas are well ventilated and well lighted.
- <u>ALWAYS</u> use eye protection when operating a staple gun.
- <u>ALWAYS</u> use caution and common sense when using a staple gun. Be aware of where electrical wiring is located. Stapling into a wire can cause severe shock or death. <u>NEVER</u> staple into electrical wiring.
- <u>ALWAYS</u> be careful when working with large pieces of Reflectix $^{\odot}$ on windy days.
- \cdot $\;$ When installing Reflectix $^{\scriptscriptstyle \otimes}$ on bright sunny days, it is best to wear sun glasses.
- · Do not work in areas such as attics when temperatures are too hot.
- Visit our website at www.reflectixinc.com for additional product and installation information.

Please Note: The intention of these Installation Instructions and 3-D renderings are for the sole purpose of illustrating the correct location and relative position of the Reflectix[®] products in specific building assemblies. The correct construction methods and techniques are the responsibility of the installer or contractor. The methods outlined are recommendations on location of the Reflectix[®] products as a guideline. There are no claims on the part of Reflectix, Inc. that these building assemblies are finite standards or meet building code requirements (as they can vary by region).
