# DIY Concrete Slab Insulation (R-1.1) Product: Concrete Slab Insulation

# **Reflectix<sup>®</sup> Installation Instructions**

- 1. Reflectix<sup>®</sup> Concrete Slab Insulation
- 2. Concrete
- 3. Concrete Reinforcing Wire
- 4. Base Material

# **Tools Required:**

Safety Glasses Tape Measure Utility Knife Flat Edge Taping Tool

## Recommended Products: Concrete Slab Insulation, White/Reflective/Bubble/Bubble - Roll: DBWEF48050 (48"x 50'), DBWEF48100 (48"x 100')

### Installation Instructions:

- Unroll the Reflectix<sup>®</sup> Concrete Slab Insulation product over the base material prior to pouring the concrete (white poly side facing up).
- Butt the seams of the product and seal with 3" wide poly tape. Note: Utilize a flat edge taping tool to assure good adhesion on all tape.
- Pour slab per code specifications.

#### **Review These Important Safety Guidelines Prior to Installation:**

- ALWAYS check local building codes before installing Reflectix\*.
- ALWAYS check the area you are insulating and make any needed repairs. Any worn wiring should be replaced before you begin installing Reflectix<sup>®</sup>.
- ALWAYS make sure work areas are well ventilated and well lighted.
- ALWAYS use eye protection when operating a staple gun.
- <u>ALWAYS</u> use caution and common sense when using a staple gun. Be aware of where electrical wiring is located. Stapling into a wire can cause severe shock or death. <u>NEVER</u> staple into electrical wiring.
- ALWAYS be careful when working with large pieces of Reflectix® on windy days.
- When installing Reflectix® on bright sunny days, it is best to wear sun glasses.
- Do not work in areas such as attics when temperatures are too hot.
- Visit our website at www.reflectixinc.com for additional product and installation information.

#### **Please Note:**

The intention of these Installation Instructions and 3-D renderings are for the sole purpose of illustrating the correct location and relative position of the Reflectix<sup>®</sup> products in specific building assemblies. The correct construction methods and techniques are the responsibility of the installer or contractor. The methods outlined are recommendations on location of the Reflectix<sup>®</sup> products as a guideline. There are no claims on the part of Reflectix, Inc. that these building assemblies are finite standards or meet building code requirements (as they can vary by region).
